Q: My nine-year-old son has a question for the town. He is an active member of 4H. He wants to know if it's possible for him to have a mini/pygmy goat within the town? He had even suggested licensing it like a dog. Considering they're only about the same size as a med size dog if not smaller and they pretty much behave the same as a dog. If people can have chickens and Bee's why not? A:

- A pygmy goat is not considered a domesticated pet and agricultural uses are not permitted in residential zones.
